- Section 2.2-3711(A)(29) – Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the public body.

IX. CERTIFICATION OF CLOSED SESSION

X. ADJOURNMENT

**BUSINESS
ITEM NO.II.A.**

AT A REGULAR MEETING OF THE ROANOKE VALLEY RESOURCE AUTHORITY (RVRA);
ROANOKE, VIRGINIA; HELD AT THE RVRA TINKER CREEK TRANSFER STATION

MEETING DATE: March 26, 2025

AGENDA ITEM: FY 2025–2026 Annual Operating and Reserves Budget and
Notice of Public Hearing

SUBMITTED BY: Jon Lanford, Chief Executive Officer
Brad Brewer, Finance Manager

SUMMARY OF INFORMATION:

At its February 26, 2025 meeting, the Board was provided with a draft, balanced Annual Operating and Reserves Budget for Fiscal Year 2025–2026 in the total amount of \$19,116,734, which remains unchanged in its proposed final version. The final budget represents a net increase of \$2,367,144 (+14.1%) from the current fiscal year. Based upon the Board’s direction, the final budget is attached for approval and action.

The FY 2025-2026 Annual Operating and Reserves budget, as presented, includes a \$1.50/ton (+2.7%) rate increase in the “Municipal Waste” rate from \$56.50/ton to \$58.00/ton. This increase will correspondingly increase the “Contract Municipal Waste” rate from \$60.00/ton to \$61.50/ton which is set at \$3.50/ton above the prevailing Municipal Waste rate. The Commercial/Private tipping fee base rates have been increased by \$2.00/ton (+3.0%) from \$67.50/ton to \$69.50/ton. This increase will correspondingly increase the rates for Construction and Demolition Waste, Special Waste (minimum rate), Dead Animals, and Others (minimum rate) to \$69.50/ton. The per ton rate for Wood Waste (untreated) has been increased from \$38.00/ton to \$39.00/ton.

Should the Board elect to increase its rates, as proposed above, a formal public hearing will be required to amend the Authority’s posted “Waste Disposal Fees and Charges” schedule. The public hearing would be set for the June 25, 2025 Board meeting. The attached resolution would authorize the necessary notice of public hearing in accordance with the requirements of the Virginia Water and Waste Authorities Act.

In accordance with its “Amended and Restated RVRA Members and Facilities Agreement,” the Authority’s annual budget must be submitted to the Member Users by April 1st of each year.

FISCAL IMPACT:

The proposed FY 2025-2026 Annual Operating and Reserves budget in the amount of \$19,116,734 is balanced and represents an overall increase of \$2,367,144 (+14.1%) from the current FY 2024-2025 budget. The budget, as proposed, allows for proper

funding of the anticipated operating and capital expenditures based on realistic revenue estimates.

STAFF RECOMMENDATION:

Staff recommends approval of the FY 2025 - 2026 Annual Operating and Reserves Budget, establishing the necessary public hearing to amend the Authority's "Waste Disposal Fees and Charges" schedule, and its required submittal to the Charter Member Users through adoption of the attached resolutions.

RESOLUTION OF THE ROANOKE VALLEY RESOURCE AUTHORITY

Adopted this 26th day of March 2025

RA#2025-

A RESOLUTION approving the Authority's Annual Operating and Reserves budget for fiscal year 2025-2026 and authorizing submittal of such budget to the governing bodies of the Member Users for approval.

BE IT RESOLVED by the Roanoke Valley Resource Authority that:

1. The fiscal year 2025-2026 Annual Operating and Reserves Budget for the Roanoke Valley Resource Authority as set forth in the report and accompanying attachments by the Chief Executive Officer dated March 26, 2025, and submitted to this Board is hereby approved; and

2. The Chief Executive Officer and Secretary are authorized on behalf of the Authority to submit the fiscal year 2025-2026 Annual Operating and Reserves budget and related documents to the governing bodies of the Member Users, being the County of Roanoke, the Cities of Roanoke and Salem, and the Town of Vinton, for approval in accordance with the requirements of the Roanoke Valley Resource Authority Members and Facilities Use Agreement, dated as of July 1, 2025, as amended.

On motion of _____ to adopt the resolution, seconded by _____ and carried by the following roll call and recorded voice vote:

AYES:

NAYS:

ABSENT:

ROANOKE VALLEY RESOURCE AUTHORITY

FINANCIAL AND RESERVES

POLICY

I. Background

The Authority recognizes one of the keys to sound financial management is the development of a systematic way to fund planned capital projects and on-going maintenance programs. The Authority believes it is equally important to establish the planned expenditures of associated funding for its capital projects and maintenance programs on a pay-as-you-go basis whenever possible. The National Advisory Council on State and Local Budgeting (NACSLB) has issued guidelines representing standards of excellence in governmental budgeting that include the preparation of policies and plans for capital asset acquisition, maintenance, and replacement (Principle 2; Element 5; Practice 5.2). The policy addresses this standard.

II. Purpose

The policy provides for the establishment and the planned funding level of maintenance and improvement reserve accounts for planned expenditures over a short-term planning period of five (5) years and a long-term planning period of ten (10+) years or more. Each individual account provides for a separate funding purpose to be designated as either "restricted" or "unrestricted" accounts. Restricted accounts must be used solely for their intended purpose as required by regulatory statute, contractual obligation, or operating permit conditions. Unrestricted funds are intended for planned capital and maintenance purposes, but may be periodically used by the Authority temporarily, for not more than six (6) months, to provide emergency funding for the Authority's operations, if needed. Reserve Accounts may be utilized to fund the same or separate projects as deemed necessary for supporting the mission of providing quality programs and facilities necessary to serve the Authority's Member Communities of Roanoke County, the City of Roanoke, the City of Salem, the Town of Vinton and their residents and businesses of the Roanoke Valley.

III. Policy Guidelines for Reserve Fund Accounts

- A. The Authority will maintain reserve accounts and an initial beginning balance of funds will be deposited into accounts as identified for the current fiscal year.
- B. Annual funding transfers to restricted accounts, if deemed necessary, will occur in twelve (12) equal monthly transfers, or other frequencies as directed by the Board, from revenues received by the Authority and as budgeted for the current fiscal year. Annual funding transfers to unrestricted accounts may occur in twelve (12) equal monthly transfers or lump sum transfers, as directed by the Board, from revenues received by the Authority and as budgeted for the current fiscal year.

- C. Ongoing expenditures from the funds will occur as budgeted for the current fiscal year as costs are accrued.
- D. Planned deposits to the funds are calculated sufficient to maintain the desired fund balances with a positive fund balance, at a minimum, for any given fiscal year during the long-term planning period.
- E. Planned expenditures of the funds are calculated sufficient to provide cash funding for all planned capital projects and maintenance projects for any given fiscal year during the long-term planning period.
- F. Any end of year operating surplus and/or interest earnings may be allocated to one or more account, as determined by the Authority's Board of Directors.
- G. An internal review of the account allocations and funding levels by RVRA Staff familiar with best management practices of solid waste operations and facilities will occur annually to ensure the priorities are consistent with the goals of the Authority and to ensure the funding levels are adequate.
- H. An external third-party review of the account allocations and funding levels by a professional engineer familiar with best management practices of solid waste operations and facilities, will occur every five (5) years to ensure the funding levels are adequate. Draper Aden Associates (DAA) last completed an external assessment of the Reserve Accounts in FY 2023.

IV. Account Definitions

The **Landfill Closure Fund** (*Unrestricted*) provides a reserve for the costs of capping completed areas of the landfill and at the end of the landfill's useful life, to completely close any remaining area, install all monitoring and collection systems and perform all post-closure care activities per regulatory requirements.

The **Equipment Replacement Fund** (*Unrestricted*) provides funds for the future purchases, regularly scheduled replacement of major operating equipment, and any uninsured risk, in an orderly fashion as to minimize annual operating costs, maximize any trade-in or surplus value, and to provide for the best overall purchasing value.

The **Ground Water Protection Fund** (*Restricted*) provides funds to address any environmental effects the operation of the landfill may have on the surrounding area. The fund also serves to assist in complying with post closure and corrective action requirements of state and federal financial assurance regulations.

The **Host Community Fund** (*Restricted*) provides funds for the construction and maintenance of public improvements to Authority property within the Host Community, as requested by the Host Community, and as approved in a formal public improvement plan.

The **Property Protection Fund** (*Restricted*) provides funds for the one-time payments under the Property Protection Policy to property owners within the Host Community for any actual realized decline in property values as a result of their relatively close proximity to the Smith Gap Regional Landfill.

The **Site Development Fund** (*Unrestricted*) provides funds for the construction of subsequent phases of the Smith Gap Landfill, as necessary, to provide ongoing landfill disposal capacity.

The **Capital Improvement Fund** (*Unrestricted*) was established to be used for various capital maintenance items and new capital projects anticipated for the ten-year planning period. Projects may be amended as solid waste operations and the industry in general continues to evolve.

The **Rutrough Road Landfill (RRLF) Post-Closure Fund** (*Restricted*) provides funding for the Authority's contractual obligation to provide for the ongoing post closure care of the closed Rutrough Road Landfill. This fund was principally depleted from capital expenditures associated with the construction of a new force main and sewer line that have substantially decreased annual operating expenses. Any remaining balance in this fund is anticipated to be spent for facility care in the next two years. Accordingly, the post closure care responsibilities are now funded by our annual revenues from the operating budget and the associated costs are budgeted as ongoing line-item expenditures in the general annual operating budget. This fund will be eliminated upon the full depletion of any remaining fund balance.

The **Contingency Fund** (*Unrestricted*) provides funding to stabilize year-to-year rate adjustments and to provide a source of funding for any unforeseen increases in expenses or decreases in revenue that would otherwise cause a negative balance for the Authority's operating funds.

V. Reporting

The Treasurer will track reserve account deposits and expenditures monthly. A monthly report will be sent to the Chief Executive Officer and the Authority's Secretary, which will be included on the Board of Directors' agenda for review at all regularly scheduled meetings. The Treasurer will also ensure that all expenditures have been through the appropriate approval process. The Chief Executive Officer will provide an annual report to the Board of Directors as to the adequacy of the funding levels of each respective reserve account.

ANNUAL REVIEW RVRA RESERVE FUNDS PLAN & REPORT FY 2025-2026

In accordance with the Authority's "Financial and Reserves Policy," its Chief Executive Officer reviewed its replacement reserve requirements and has determined the adequacy of the funding plan as submitted herein. The Authority, in its review, has defined adequacy to mean that sufficient funding, if funded as scheduled, exists in amounts equivalent to or exceeding the anticipated expenditures during a short-term period (next five subsequent fiscal years) and a long-term period (next ten subsequent fiscal years). In cases of shortfalls, the Authority may need to transfer funds from other fully funded unrestricted reserve funds. Additionally, certain amounts may need to be borrowed, if needed, as indicated in the expenditure plan to address insufficient funding. The Authority has established the funding and expenditure plan, as outlined in the "Summary of Reserve Funds: 10-Yr. Planning Period" (p.11.)

This Reserve Fund Plan and subsequent report is exclusive of all previous borrowing associated construction activities related to the now operational conversion from rail to truck at the Smith Gap Landfill and Tinker Creek Transfer Station. All debt service payments are accounted for within the FY 25-26 Operating Budget as obligated by the terms of the individual agreements. In addition, the RVRA has adjusted its previous anticipation of contracted waste via the existing County Waste (a commercial hauler) amended agreement from 80,000 tons annually to a more conservative estimate of 65,000 tons annually in FY'26.

According to staff's review, the Equipment Reserve Fund is deemed to be inadequate for the short and long-term planning periods. Staff may continue to elect to buy used equipment or from Government Surplus and modify to fit its needs as appropriate to further manage future costs. Again, as noted above, Staff is reviewing other purchasing options including deferment, renting and/or leasing certain pieces of equipment, purchasing government surplus equipment and modifying to fit its needs.

The Capital Improvement Reserve Fund is deemed inadequate for the short-term period and long-term period as well. Sufficient time is available to plan for the appropriate funding mechanism, however, it must be addressed.

At the start of FY'25, the Contingency Reserve Fund balance was \$1,483,939. Staff projects a \$45,400 contribution to this fund in FY'26 and therefore the fund balance will increase to \$1,529,339. The Authority's Policy includes a goal of retaining 8-10% of the annual operating budget in its Contingency Reserve. This projected balance is 8% of the FY'26 operating budget and is therefore in compliance with the Authority's Policy.

Again, as noted last year, the Rutrough Road Post-Closure Account Reserve Fund is nearly depleted. Annual post closure care responsibilities were moved to the operations budget starting in FY '18. Any remaining funds in the Rutrough Road Reserve account will be used exclusively for the Rutrough Road Landfill. Staff is taking measures to utilize any remaining funds in FY'25. This Fund is projected to be exhausted in FY'26 and will be eliminated from the Authority's Reserve Funds program upon its full depletion.

The Site Development Reserve Fund is deemed adequate for the short and long-term periods. Phase VIII engineering will need to begin in FY'29 with construction set to start for FY'30.

RVRA RESERVE FUND REVIEW

The retirement of all outstanding bond debt in FY 2011 subsequently relieved the Authority of its former financial requirements as previously imposed by the Master Indenture of Trust, including the establishment and funding of certain reserve funds as recorded and reported in the annual report. While no longer obligated to the terms of the Master Indenture of Trust, several previously established reserve funds remain as ongoing obligations to the Authority due to start-up and operating restrictions imposed under the Authority's separate "Landfill & Transfer Station Permit Conditions & Operating Policies," including: The Ground Water Protection Fund (formerly known as "The Environmental Fund"); The Host Community Fund; and The Property Protection Fund. Additionally, the Authority is contractually obligated to maintain the post-closure care of the closed Roanoke Landfill (a.k.a. the Rutrough Road Landfill) with funds initially established and designated expressly for this purpose in The Rutrough Road Landfill Post-Closure Fund. Therefore, these four reserve funds are designated as "Restricted" reserve accounts which must be maintained and adequately funded for their express, respective purposes. The Rutrough Road Landfill Post-Closure Fund is nearing depletion and all remaining post closure care activities have been transitioned to the operating budget and will be eliminated upon its full depletion.

As part of its initial post-bond debt, fiscal responsibility, the Authority recognized that one of the keys to sound financial management is the development of a systematic way to fund planned capital projects and on-going maintenance programs beyond its operating permit and contractual requirements. The Authority believes it is equally important to establish the planned expenditures of associated funding for its capital projects and maintenance programs on a pay-as-you-go basis whenever possible.

The National Advisory Council on State and Local Budgeting (NACSLB) has issued guidelines representing standards of excellence in governmental budgeting that include the preparation of policies

and plans for capital asset acquisition, maintenance, and replacement (Principle 2; Element 5; Practice 5.2). Therefore, the Authority established additional reserve funds for these purposes which are designated as “Unrestricted” reserve accounts since at this time there are no external conditions, other than sound financial management as outlined and approved in the **RVRA RESERVES PLAN** (“Plan”), requiring their existence and funding levels.

The Unrestricted Funds include: The Closure Fund; The Equipment Fund; The Site Development Fund; The Capital Improvement Fund; and The Contingency Fund. The Closure, Equipment, and Site Development Funds were previously required under the former Master Indenture of Trust and funding levels were maintained and managed accordingly. The Capital Improvement and Contingency Funds, while not previously required per any outside obligation, were established and recognized as being necessary for sound financial management of the Authority’s operations and its facilities. The Authority recognizes that periodically, it may need to add, delete, transfer, or amend its unrestricted funds as deemed to be in the best interest of the Authority and its members. The additional borrowing of funds (or debt) and the Ownership of the Salem Transfer Station has also impacted the future Reserve and Financial Policies of the Authority.

Per its Financial and Reserve Policy (Section III. H.), an external, third-party review of the account allocations and funding levels by a professional engineer, familiar with best management practices of solid waste operations and facilities, will occur every five (5) years to ensure the funding levels are adequate. That external review was last conducted by Draper Aden Associates (DAA) for FY 2023. Accordingly, the next external review is scheduled for FY 2028.

All funds required for expenditures for the five-year planning period are currently projected to be available in the individual reserve accounts, respectively, except for the Equipment Reserve Fund. Sufficient funds are deemed to be available for transfer from other reserve funds for the short-term period, if necessary.

Funds required for expenditures during the ten-year planning period are currently projected to be available in the individual reserve fund accounts, respectively, with the exceptions of the Equipment and Capital Improvement Reserve Funds.

The Authority annually makes deposits to its reserve funds for funding future planned expenditures. These reserves allow the Authority to establish and project an orderly adjustment of its tipping fee revenues, as necessary, to prepare for future capital expenditures to coincide with its annual operating costs.

Initial projections made in 1992 during the start-up, 20-year revenue bond issuance established a basis of anticipated costs and revenues for operating the new solid waste disposal system through the bond term. Three decades of actual operating experience of the Authority's systems has allowed the Authority to delay anticipated increases in tipping fees and offer rates less than originally projected.

In conclusion, each reserve fund has been reviewed by staff for its adequacy to meet the planned expenditures over a short-term period of five-years and for an extended, long-term, planning period of ten-years. As noted previously, the Equipment Replacement and Capital Improvement Funds are showing a shortage in the short and long-term planning periods. Sufficient funds are available in the unrestricted accounts, specifically the Site Development Reserve Funds to cover this shortfall during both periods. However, utilizing this transfer of funds could require additional borrowing of funds for the future design

and construction of Ph. IX which is outside the long-term planning window. As a result, the Total Reserve Balances remain positive. Therefore, both short and long-term reserve balances are cautiously adequate.

Staff re-assesses all the reserves every year and, in some instances, equipment replacement and/or projects can be delayed or moved up depending on the situations at the time. In summary, while deficits are shown in the short and the long-term reserve accounts, staff believes that most of those impacts can be mitigated as noted above.

Respectfully Submitted,

Jonathan A. Lanford
Chief Executive Officer

LANDFILL CLOSURE FUND

The Landfill Closure Fund provides a reserve for the costs of capping completed areas of the Smith Gap Regional Landfill and to install all groundwater and gas monitoring and collection systems per regulatory requirements.

For the last seven years, no deposits were made to the Landfill Closure Fund. For the current planning period, again staff is not recommending any deposits to the Landfill Closure Fund since funds are adequate for the immediate five-year planning period. Staff anticipates making \$200,000 deposits to the Landfill Closure Fund thereafter. As noted, deposits may be adjusted based on revised cost estimates and an increase or decrease in the amount of waste received in future years.

The Landfill Closure Fund funding levels are for capital costs associated with closing portions of the landfill and not intended to fund the post closure care.

Note: Additional funding from Surplus (\$550,000) was added from FY06/07 budget in FY 07/08
 Also, \$3,000,000 was transferred to Site Development in FY 22/23.

EQUIPMENT REPLACEMENT FUND

The Equipment Replacement Fund is established to provide funds for the regularly scheduled replacement purchases of major operating equipment.

With the additional guaranteed tonnage and new revenue source, funding levels have been increased from \$0 to \$695,000 for new equipment next year. For FY 2027 and beyond, Staff has shown an increase in the funding levels to \$1,600,000 provided funds are available. The Equipment Replacement Fund shows a negative balance of \$2,777,000 at the end of FY '27 with a continued increase in the deficit going forward at the proposed funding levels until FY '30. The Authority owns and operates a fleet of fifty walking-floor trailers used daily to transport Municipal Solid Waste from its transfer stations to the Smith Gap Landfill.

Staff will continue to identify any obsolete or other excess machinery as part of normal operations that may generate additional revenues. Staff will prepare a Board Report declaring this equipment as surplus and to be auctioned off. The exact funds the Authority may recoup is unknown; therefore, no additional funding from the sale of surplus equipment is shown.

Staff continuously evaluates all purchasing options and has begun to evaluate lease options as well when replacing a piece of equipment to ensure costs are managed. The Equipment Replacement Fund also serves to assist in complying with post-closure requirements of financial assurance regulations.

GROUND WATER PROTECTION FUND

The Ground Water Protection Fund (formerly the Environmental Fund) is established to provide funds, if needed, to address any adverse environmental effects on the surrounding area within the Host Community area that may result from the operation of the Smith Gap Regional Landfill. The fund also serves to assist in complying with post closure and corrective action requirements of state and federal financial assurance regulations.

The existing fund balance is \$500,000 and is adequate for the immediate five-year planning period as shown. No additional deposits are planned currently.

RESERVE FUNDS

HOST COMMUNITY FUND

The Host Community Fund is established to fund the construction, operation, and/or maintenance of public improvements for the benefit of the Host Community which is defined as the area within a 5,000 ft. radius of the Smith Gap Regional Landfill property lines. Funded improvements will be established with input from the Host Community and set out in a public improvement plan as prepared and presented to the Authority by the Bradshaw Citizens Association (BCA).

Originally, annual deposits were made in the amount of \$10,000 monthly with the balance not to exceed \$150,000. However, the Host Community, with assistance from Staff, increased the limit from \$150,000 to \$250,000 in FY 2014. The Host Community, through the BCA, is exploring its options for the use of the Host Community Fund. Existing and proposed funds are adequate for the immediate five-year planning period as shown.

RESERVE FUNDS

PROPERTY PROTECTION FUND

The Property Protection Fund provides funds for payments under the Property Value Protection Policy for any actual decline in property values that may be directly attributed to their proximity to the Smith Gap Regional Landfill, as determined and outlined under the Policy.

The Property Protection Fund balance of \$370,430 is deemed to be sufficient for its intended purpose. Deposits to this fund may also be made from the proceeds of any property purchased and then resold under the terms of the Policy.

Existing funds are adequate for the immediate five-year planning period as shown unless there is a major unforeseen issue arising at the landfill.

RESERVE FUNDS

SITE DEVELOPMENT FUND

The Site Development Fund provides funds for the construction of subsequent phases of the Smith Gap Regional Landfill cells.

For the current planning period (FY '26), funding levels are planned at \$1,829,913 due to the planned construction of Phase VIII in FY '29-30. The proposed funding level is \$1,700,000 for FY '27 and going forward which provides sufficient funds in the short-and long-term.

The amount of air space used is reviewed every year and adjustments to planned funding levels are made as necessary.

CAPITAL IMPROVEMENT FUND

In FY 2008 - 2009, The Capital Improvement Fund was established by the Authority, outside the Master Indenture of Trust, to be used for various capital maintenance items and new projects anticipated for the short and long-term ten-year planning periods. Examples of the projects include concrete floor overlay, facility updates (i.e. carpet/flooring, bathroom/locker room/break room remodels), re-surfacing all asphalt internal roads and parking lots, replacing the heating and cooling systems, renovation and maintenance of all existing building structures, construction of a residential service area, and possibly a new and additional automated, in-bound scale. Projects may be added or amended as the solid waste operations and industry continues to evolve and funds are available.

Due to the newly identified projects on the following page, there are deficits shown in the five-year planning period and funding levels are insufficient to fully fund all the improvements that are identified. There are deficits shown in ten-year planning period as well.

The Capital Improvement Fund also serves to assist in complying with post-closure requirements of financial assurance regulations.

RUTROUGH ROAD LANDFILL POST-CLOSURE FUND

The Rutrough Road Landfill Post-Closure Fund (RRLF PC Fund) was established with an initial contribution of \$5,500,000 per the terms of the "Implementation Agreement For (i) Distribution and Indemnification Agreement dated October 23, 1991, and (ii) Assignment Agreement dated October 23, 1991." The sole purpose of the RRLF PC Fund was to provide the funding necessary for the Authority to manage the post-closure care of the closed Rutrough Road Landfill until (i) such time as the funds in the account are depleted; or, (ii) the Authority determines the account is no longer needed for its intended purpose, in which case, any funds remaining in the account shall be available for use by the Authority for any authorized purpose.

The RRLF PC Fund is essentially depleted. Funds will remain in the Rutrough Road account to cover pump replacement/repair, site maintenance, or any other items that may arise. We anticipate that the remaining balance will be depleted by FY'26 when this Reserve account will be deleted from future Budgets.

Funds remaining for Leachate force main and lift station

All Operating cost have been moved to the annual budget and are funded from the administration accounts

CONTINGENCY FUND

The purpose of the Contingency Fund is to provide (i) rate stabilization on an annual basis; and (ii) emergency funding for unforeseen increases in expenses or decreases in revenues.

As noted earlier in this report, Staff projects a balance of \$1,529,339 that will be available in the Contingency Reserve Fund as of the start of FY '26. The Authority's Policy has the goal of retaining 8-10% of its annual operating budget in its Contingency Reserve. This projected balance is 8% of the FY '26 operating budget of approximately \$19.1M and is therefore compliant with the Authority's Policy.

The Contingency Fund also serves to assist in complying with post-closure requirements of financial assurance regulations.

RESOLUTION OF THE ROANOKE VALLEY RESOURCE AUTHORITY

Adopted this 26th day of March 2025

RA#2025-

A RESOLUTION SETTING FORTH AND PROVIDING FOR PUBLIC NOTICE AND HEARING ON THE AUTHORITY'S PRELIMINARY SCHEDULE OF REVISED RATES, FEES, AND CHARGES TO BE EFFECTIVE JULY 1, 2025.

WHEREAS, the Roanoke Valley Resource Authority ("Authority"), in accordance with the provisions of the Virginia Water and Waste Authorities Act, intends to establish a revised schedule of rates, fees, and charges to be charged by the Authority to users of the Authority's garbage and refuse collection and disposal system and related facilities ("System"), providing for the following changes in the Authority's rates, fees, and charges:

- (i) increase the Municipal Waste Fee from \$56.50/ton to \$58.00/ton; and
- (ii) increase the Commercial, Construction & Demolition Debris, Dead Animals, and Asbestos (non-friable) fees from \$67.50/ton to \$69.50/ton; and
- (iii) increase the Wood Waste (untreated) from \$38.00/ton to \$39.00/ton; and
- (iv) increase the Others (as determined by Resource Authority) from \$67.50 \$100.00 per ton to \$69.50 - \$100.00 per ton.

NOW, THEREFORE, BE IT RESOLVED by the Roanoke Valley Resource Authority as follows:

1. Fees and Charges. The Authority hereby adopts the preliminary schedule of revised rates, fees, and charges to be charged by the Authority effective July 1, 2025, for the use of the System are as set forth on Exhibit A, which is attached to and incorporated in this resolution.

2. Public Hearing. A Public Hearing is hereby scheduled for the Authority's regularly scheduled June Board Meeting at 12:00 p.m. on June 25, 2025 at the Authority's Tinker Creek Transfer Station on the preliminary schedule of revised rates, fees, and charges.

3. Notice of Public Hearing. The Chief Executive Officer and Secretary of the Authority are authorized and directed to publish the required Notice of Public Hearing setting forth the preliminary schedule of revised rates, fees, and charges to be given by two publications, at least 6 days apart, in a newspaper having general circulation in the area to be served by the Authority with the second notice being published at least 14 days before the date fixed in such notice for the hearing. The Authority Secretary is authorized and directed to mail a copy of such Notice of Public Hearing, including this Resolution, to the Board of Supervisors of Roanoke County, the Town Council of the Town of Vinton, and the City Councils of the City of Roanoke and the City of Salem. After such public hearing, the preliminary schedule, either as originally adopted or as amended, may be adopted and put into effect.

4. Effective Date. This Resolution shall take effect immediately.

On motion of _____ to adopt the resolution, seconded by _____ and carried by the following roll call and recorded voice vote:

NOTE: THE ROANOKE VALLEY RESOURCE AUTHORITY RESERVES THE RIGHT TO ESTABLISH FEES AND CHARGES AS IT DEEMS NECESSARY AND APPROPRIATE FOR WASTES NOT LISTED HEREIN AND TO REFUSE TO ACCEPT ANY MATERIAL DEEMED BY THE AUTHORITY TO BE UNACCEPTABLE.

**ROANOKE VALLEY RESOURCE AUTHORITY
TINKER CREEK TRANSFER STATION
1020 HOLLINS ROAD, N.E.
ROANOKE, VIRGINIA 24012**

MINUTES OF FEBRUARY 26, 2025

The Roanoke Valley Resource Authority met at the Tinker Creek Transfer Station, 1020 Hollins Road NE, Roanoke, Virginia.

OPENING CEREMONIES

Call to Order: Chair Owens called the meeting to order at 12:05 p.m., followed by attendance roll call.

Members Present: Steve Bandy, Roanoke County
Doug Blount, Roanoke County
Rob Light, City of Salem
Mike McEvoy, City of Roanoke
Rebecca Owens, Roanoke County (Chair)
Todd Simmons, Roanoke County

Non-member: Brian Haynesworth attended on behalf of Jeffrey Powell

Members Absent: Laurie Gearheart, Roanoke County
Pete Peters, Town of Vinton
Jeffrey Powell, City of Roanoke (Vice Chair)

Staff Present: Jim Guynn, Attorney
Jon Lanford, Chief Executive Officer
Jeff Harbin, Director of Operations - Field Services
Jeremy Garrett, Director of Operations – Technical Services
Brad Brewer, Finance Manager
Lorie Bess, Board Secretary

REQUESTS TO POSTPONE, ADD TO, OR CHANGE THE ORDER OF AGENDA ITEMS

None

BUSINESS – ACTION ITEM

REVIEW DRAFT AND DISCUSS UPDATED PURCHASING POLICY

Mr. Lanford stated the Board was provided the draft policy in January and reminded them of one key change to the policy which included having no set limits for purchasing and procurement requirements, but instead having the policy reference the state code, so as those limits change at the state level the policy would automatically update itself and we would simply update the related attachment. He recommended approval of the revised RVRA Procurement Manual as it was presented.

MOTION: That the Board approve the revised RVRA Procurement Manual, as presented.

MOTION: Mr. McEvoy

SECOND: Mr. Bandy

ABSENT: Mrs. Gearheart, Mr. Peters, Mr. Powell

AYES: Unanimous

RESOLUTION: RA2025-08

BUSINESS – INFORMATION ITEM

DRAFT FY 2025-2026 ANNUAL BUDGET AND RESERVE FUNDS

Mr. Lanford thanked Mrs. Gearheart, Mr. Bandy, and Mr. Brewer for their work on the budget. He stated he would present the budget to the four localities in April. He discussed options to simplify the process for collecting host fees, and noted starting July 1 we would receive royalty fees from Archaea Energy and Alleghany County, approximately \$800,000 and \$200,000, respectively. He informed the Board salaries for some positions would be brought up to market average and for employees that did not get the salary increase last year, they would get an additional \$1.00 per hour increase this year, in addition to the 3% increase given to all employees.

Mr. Brewer then reviewed the detailed budget noting any areas of significant increase/decrease and answered questions from the Board.

The draft FY'26 budget in the total amount of \$19,116,734 is balanced and represents an overall increase of \$2,367,144 (+ 14.1%) from the FY'25 budget of \$16,749,590. The proposed draft FY'26 budget includes an increase of \$1.50/ton (+2.7%) in Municipal tipping fees. It also includes an increase of \$2.00/ton (+ 3.0%) for Commercial and Private tipping fees. With no further adjustments to revenues or expenses, the net impact would be an increase in its budgeted Transfer to Reserves of \$1,102,663 (66.1%). Staff proposed an increase in its Wood Waste tipping fees from \$38/ton to \$39/ton, to more appropriately cover increases in its costs and remain consistent with current market conditions.

Projected Total Revenues (\$19,116,734) include the following major impact(s):

1. A projected net increase in Disposal Fees of \$1,480,855 (+9.0%) primarily due to a projected increase of approximately \$1,249,200 in Contracted Municipal Solid Waste (MSW) and \$219,000 in increased Commercial tipping fees; and
2. A projected new revenue stream of \$831,289 from the sale of renewable natural gas (RNG); and
3. A projected net increase in Interest Income of \$50,000 in line with current market conditions.

Projected Total Expenses (\$19,116,734) include the following major impact(s):

1. A projected total increase in Personnel costs of \$265,993 (+6.9%) primarily due to proposed, average, merit/performance salary adjustments of 3% (\$63,589).
2. A projected total increase in Operating costs of \$1,003,827 (+10.7%) primarily due to:
 - a. Projected net increase in MSW Transportation costs of \$289,774 primarily due to projected transportation contractor cost increase of 5% (\$198,550) and a projected increase of \$91,224 due to increased tonnage; and
 - b. Projected increase in Waste Water Transportation costs of \$475,558 primarily due to increased leachate quantities associated with operating an expanded landfill.
3. A projected total increase of \$1,102,663 in Transfers to the Reserves. There are other minor adjustments to specific revenue and expenditure line items.

FISCAL IMPACT:

The draft budget, as proposed, allows for proper funding of the anticipated operating and capital expenditures based on realistic revenue estimates.

It was recommended that the Board direct any changes deemed appropriate for inclusion into the final FY'26 budget to be presented at its March 26, 2025 meeting.

CONSENT AGENDA

MINUTES OF JANUARY 22, 2025

MOTION: That the Board approve the consent agenda item, as presented.

MOTION: Mr. Light

SECOND: Mr. McEvoy

ABSENT: Mrs. Gearheart, Mr. Peters, Mr. Powell

AYES: Unanimous

RESOLUTION: RA2025-09

REPORTS

FINANCIAL REPORTS

Mr. Brewer reviewed the following financial reports for month ending January 31, 2025.

1. Statement of Cash Balances
2. Statement of Operations
3. Reconciliation of Net Income to Cash Provided by Operations for Month ending January 31, 2025 (Cash Basis)
4. Summary of Reserve Funds
5. Summary of Cash Reserve Funds Transferred from Roanoke Valley Regional Solid Waste Management Board
6. Cumulative Statement of Operations
7. VRA2021A Bond Issuance

WASTE TONNAGE REPORT

Mr. Lanford reviewed the Waste Tonnage report noting we are performing above budget on tonnages.

The following monthly reports were provided to the Board as information:

- FY24-25 Monthly Trailer Report
- Residential Waste Report
- Woodwaste Report
- Recycling Report
- Household Hazardous Waste Report

AIR SPACE REPORT

Mr. Garrett reviewed the January 2025 Airspace Report.

UTILIZATION BETWEEN SURVEYS

December 23, 2024 vs. February 10, 2025						
Actual Tonnage Received (Smith Gap): 36,999						
Volume Cut (yd ³)	Volume Fill (yd ³)	Volume Net (yd ³)	Density (t per yd ³)	Tonnage Cut (t)	Tonnage Fill (t)	Tonnage Net (t)
25,690.8	70,881.8	45,191.0	0.5	12,845.4	35,440.9	22,595.5

Note: The ratio of volume utilized and actual tonnage disposed allows for the calculation of the density factor for airspace utilization (Represented above as 0.7 tons per yd³ or 1,400 lbs. per yd³).

REMAINING AIRSPACE

February 10, 2020 Survey vs. Permit Master Model Cells I-VII (Top of Intermediate Cover)						
Estimated Annual Tonnage (Smith Gap): 330,000						
Volume Cut (yd ³)	Volume Fill (yd ³)	Volume Net (yd ³)	Density (t per yd ³)	Tonnage Cut (t)	Tonnage Fill (t)	Tonnage Net (t)
52,947.5	3,245,087.9	3,192,140.4	0.7	26,473.75	1,622,543.9	1,596,220.2
Estimated Remaining Airspace (Years)						4.76

Note: Airspace estimates do not directly include daily cover estimates; however, the density factor is also artificially low, as it does not include cover materials. This methodology significantly nullifies the error, but it should always be considered.

PROJECT STATUS REPORT

None.

PUBLIC QUESTIONS AND COMMENTS

None.

CHIEF EXECUTIVE OFFICER REPORT

Mr. Lanford commended staff for their extra work involved with recent inclement weather, especially at Smith Gap Landfill. He thanked Mr. Garrett and Mr. Wells for staying overnight to take care of overflows.

He informed the Board the administrative team have a work session scheduled in March to work on the Master Plan and will bring their ideas to the Board in a future meeting.

He reported all operational costs associated with work from Hurricane Helene have been approved from FEMA and there may also be funds available for mitigation improvements.

BOARD MEMBER COMMENTS

Mr. McEvoy stated the General Assembly passed a bill requiring the Water Authority to perform PFAS testing at the landfill. Mr. Lanford replied he had seen an article in the Roanoke Times about it.

Mr. Light thanked Brian Haynesworth for attending on behalf of Mr. Powell and also thanked RVRA staff for their extra efforts during the inclement weather.

CLOSED SESSION

MOTION: That the Board go into Closed Session pursuant to the *Code of Virginia*, 1950, as amended, to discuss the following:

- Section 2.2-3711(A)(1) – Discussion of personnel matters regarding the performance evaluation of the Chief Executive Officer.

MOTION: Mr. Bandy

SECOND: Mr. Simmons

ABSENT: Mrs. Gearheart, Mr. Peters, Mr. Powell

AYES: Unanimous

TIME: 1:21 p.m.

RESOLUTION: RA2025-10

CERTIFICATION OF CLOSED SESSION

MOTION: That the Board return to Regular Session from Closed Session and adopted the following resolution by roll-call vote:

BE IT RESOLVED, that to the best of the Board members' knowledge only public business matters lawfully exempt from open meeting requirements and only such matters as were identified in the motion to go into Closed Session were heard, discussed or considered during the Closed Session.

MOTION: Mr. McEvoy

SECOND: Mr. Blount

ABSENT: Mrs. Gearheart, Mr. Peters, Mr. Powell

AYES: Unanimous

TIME: 1:23 p.m.

RESOLUTION: RA2025-11

ADJOURNMENT

Hearing no other questions or comments, Chair Owens adjourned the meeting at 1:24 p.m.

Respectfully submitted,

Lorie C. Bess
Board Secretary

Smith Gap Landfill

Surveyed March 13, 2024

Coordinate Reference System: RVRA.jxl

February 2025 AIRSPACE REPORT

Prepared by Jeremy Garrett March 19, 2025

[View in Propeller](#)

propeller

Surveyed March 13, 2024

UTILIZATION BETWEEN SURVEYS

February 10, 2025 vs. March 13, 2025						
Actual Tonnage Received (Smith Gap): 30,123.5 tons						
Volume Cut (yd ³)	Volume Fill (yd ³)	Volume Net (yd ³)	Density (t per yd ³)	Tonnage Cut (t)	Tonnage Fill (t)	Tonnage Net (t)
12,211.8	58,944.5	46,732.8	0.522	6,374.6	30,769.0	24,394.5

REMAINING AIRSPACE

March 13, 2025 Survey vs. Permit Master Model Cells I-VII (Top of Intermediate Cover)						
Estimated Annual Tonnage (Smith Gap): 330,000						
Volume Cut (yd ³)	Volume Fill (yd ³)	Volume Net (yd ³)	Density (t per yd ³)	Tonnage Cut (t)	Tonnage Fill (t)	Tonnage Net (t)
53,485.3	3,202,272.3	3,148,787.0	0.522	27,919.3	1,771,586.1	1,643,666.9
Estimated Remaining Airspace (Years)						4.98

Note: Airspace estimates do not directly include daily cover estimates; however, the density factor is also artificially low, as it does not include cover materials. This methodology significantly nullifies the error, but it should always be considered.
